

Blondelle 4 lane Manifold, aluminium body

4 valves

- Unique spindle valves, always tight without effort
- Class 1, 'A Lame Acier' Ø 80 gauges
- 4 lanes - 4 valves
- All combinations of refrigerants possible
- Dry, oil filled or pulse-free
- Sight glass and hook
- Available with or without the appropriate charging hoses

Supplied in a Blondelle plastic carrying case including: 3 charging hoses; red, yellow and blue; length 1,5 m with 1/4" SAE fitting, optional ball valves and 1 yellow charging line, length 1 m with 3/8" fitting. For R410A High Resistance hoses with Teflon gaskets. Red and blue hoses are fitted with a 5/16" nut at the curved side.

Manifold		Gauges	Reference			Scales		Refrigerants	
Valves	Other specs	Type	Manifold	Dial	Option	bar	psi		
4 valves	Complete case	Dry	FR1108-4R						
		Oil filled	FR1308-4R						
		Pulse-free	FR1204-4R						
		Without charging hoses	Dry	FR0208-4R					
			Oil filled	FR0408-4R					
	Special vacuum	Vacuum gauge with valve	Pulse-free	FR0304-4R					
			Oil filled	FR1310

				V		Option: Charging hoses length 1,5m with ball valve			
				VS		Option: Charging hoses length 1m with ball valve			

Bare body	Reference
Central valve	FR0104
4 valves	FR0104-4R

How to read the tables?

The complete designation of a manifold comprises on one hand the references of the manifold and gauge and on the other hand the reference of the refrigerants.

Ex: 4 lane & 4 valves aluminium manifold, complete case, 80mm gauges, oil filled, refrigerants: R134a+R404A: Manifold: FR1308-4R; Refrigerants: E02; Reference: FR1308-4R-E02
