

PILOT PLUS

High-end elektronik vacuum gauge

- Industry-first filter protects vacuum sensor from oil and contaminants
- Quick calibration function allows the user to adjust for variations in atmospheric pressure
- Easy to replace filter
- Accurate from atmosphere down to one micron
- Displays in microns, millibar and Pascal
- Increased accuracy and stability over the previous model
- Battery life from (1) 9V battery (included) is increased to 45 hours

SPECIFICATIONS

Weight (with battery)	0,2 kg
Controls	On/Off/Unit selection button
Power source	9V battery
Refrigeration fitting	1/4" male flare
Display units	Microns, Pascal, millibar
Display range	Atm to 1 micron
Auto shut-off	After 15 minutes; last reading displayed when restarted
Resolution	Microns: down to 1-micron Pascal: down to 1-Pascal mbar: down to 0,01 mbar
Operation temperature range	0 to 50° C
Storage temperature range	-10 to 60° C
Maximum overpressure	10 bar
Warranty	1 year

ACCESSORIES

710-202-G1	Pilot Plus vacuum gauge
Replacement parts:	
710-600-G1	Carrying case

Industry-first sensor-protecting filter

- Delivered in a hard storage case including: Pilot Plus, filter, sensor, 9V battery, operating manual.
